## A New Home Sewing Machine

Is generally regarded as the best machine on the market today. In these days while some manufacturers are flooding the country with worthless sewing machines and issuing circulars wherein they have copied the legitimate claims of reputable companies, many purchasers become bewildered and puzzled and find it difficult to make a selection. The popularity that the NEW HOME MACHINES have earned and which they maintain throughout the world is evidence of their superiority and as we have always enjoyed the enviable reputation of handling only first-class machines, there need be no hesitation in buying from us. We also handle the PAN-AMERICAN HAND SEWING MACHINE.
